

Congratulations to the cast of *JOSEPH!*

Thank you all so much for your incredible patience through this process. We are so thrilled with the level of talent and commitment that you have all brought to the table for this show! It made our jobs more difficult, but we are excited that this is going to be an AMAZING production.

You will see that we have not assigned specific names to the Brothers. That is because we will be breaking up some of the Brother lines, songs and solos among the different brothers and not necessarily the Brother listed in the script. We will assign the lines and solos to specific cast members as we go along.

There are several roles still to be determined, as you can see. Because so many are new to the process, we wanted to give time for some cast members to have more opportunity to shine and show what they can do as they become more comfortable with us, and also because we are still hoping to grow the cast, and this will leave some room for new people to join. We will finalize those TBD parts over the next few weeks. There are also some solos and single lines to be given out. We will have opportunities to audition for those during the rehearsal process in the coming weeks.
